

THE OFFICE OF THE PRESIDENT OF THE
INTERNATIONAL FIELD ARCHERY ASSOCIATION
IFAA

Hauptstrasse 39 – 57636 Sörth/ Germany

Dear German Family of Archers, Dear friends of Archery!

The International Field Archery Association is delighted to confirm the award of hosting the 2027 World Bowhunter Championship to the German Field Archery Association DFBV.

We trust, the DFBV, together with organising partners, will present to us an unforgettable event with perfectly prepared venues, the legendary German hospitality and a dedicated team that can rely on the support of a great and cosmopolitan local community in one of Germany's most beautiful regions, providing a perfect scenery with a truly impressive historical background.

Bad Waldsee, for the next two years, will hold the Banner of the IFAA and become the synonym of a most desirable destination for all archery-addicted athletes believing in the values of "Sport for All".

Regardless of their age or gender, their cultural background or their social status, all these athletes will unite under the banner of the Family of Archers to celebrate a festival of Sport, socializing with old friends and building up new friendships in a beautiful city just waiting for them to arrive.

We, the International Field Archers Association, therefore, call out to all archers enjoying the beautiful sport of 3D Target Archery to come to Bad Waldsee and enjoy with us what Germany provides to International Archery not limited to elites but open to everybody willing to be part of something very special.

Dear friends, I send you my best wishes for a successful event that once more establishes Germany as a landmark in our beloved Sport.

Yours in Archery

Martin Koini

President IFAA
